kanoa

Powered by Ignition by inductive automation

kanoa quality

- In-App Form Designer
- Dispatching & Scheduling
- Compliance Management
- Automatic & Manual Data Collection
- SPC & Data Analysis

Create a culture of quality that is both easy to implement and hard to overlook with Kanoa Quality. Deliver real-time insights to front-line operators and foster a proactive approach to quality management.

A complete, Ignition-powered solution

Full deployments in days, not months

Kanoa Quality includes:

Ignition Modules   Database   Starter Project

Start simple, start fast
Design Quality forms using in-app tools and with **zero code**.
Create and deploy quality forms in **minutes**.

Use Cases

Get Paper out of your Process - Replace paper forms with digital Check Sheets to deliver real-time feedback, reduce mistakes, and improve compliance.

Reduce Waste - Ensure product quality at every step of the process to stop waste before it happens; saving time, energy, and materials.

Adoption and Compliance - Satisfy quality and regulatory requirements with check dispatching and scheduling to make sure the right checks are completed on-time, every-time.

Quality Data Insights - Analyze Quality data with built-in SPC and analytical tools; or connect your software-of-choice to our fast and open database.

Implementation

Integrators, Kanoa Services, or DIY

- The Friends of Kanoa partnership program highlights Ignition Certified Systems Integrators working with Kanoa
- Kanoa can provide additional consulting and implementation services for complex deployments
- Manufacturers with Ignition Certified Engineers can train their in-house team

Pricing

$20,000
per Ignition Gateway

+ $4,000/Yr.
